

10th Annual Meeting of the Permafrost Carbon Network

Virtual - November 10, 2020

7am-11.30am AKT/8am-12.30pm PT/11am – 3.30pm ET/5pm-9.30pm CET

Introduction

30 min

Introduction, ice breaker, and overview of network activities

Ted Schuur & Christina Schädel

Session I

65 min

Panel 1: How much carbon is stored in the permafrost region and how vulnerable is it?

Moderator: Christina Schädel

Panelists: Gustaf Hugelius, Claire Treat, Jens Strauss, Christian Knoblauch

Panel 2: How much carbon will be released through gradual climate warming and abrupt permafrost thaw?

Moderator: Merritt Turetsky

Panelists: Dave Lawrence, David Olefeldt, Guido Grosse, Miriam Jones

Breakout I

25 min

All participants – interactive breakouts with 4-6 participants and poll questions

Break

30 min

All participants

Updates

20 min

Ongoing and new network synthesis activities

Moderators: Jessica Ernakovich, Mike Loranty

Session II

65 min

Panel 3: Are increases in Arctic carbon emissions already occurring?

Moderator: Ted Schuur

Panelists: Sue Natali, Roisin Commane, Katey Walter Anthony, Eugenie Euskirchen

Panel 4: Total remaining carbon budget, policy, and communication

Moderator: Ben Abbott

Panelists: Charlie Koven, Pam Pearson, David Reidmiller

Breakout II

25 min

All participants – interactive breakouts with 4-6 participants and poll questions

Wrap Up

10 min

All participants
